6th HAPDE summer school,
BCAM-UPV/EHU.

Dear organizers,

I am writing to express my interest in taking part in the 6th summer school on harmonic analysis and partial differential equations.

I feel like the topics of this summer school fit my research interests perfectly, as I am working on dispersive PDEs and applying some techniques of harmonic analysis to them as part of my PhD.

I would like to learn more about all the topics presented in the course, and it is difficult for me to choose. The content of the lectures of Topic C are the most compelling to me, however, the student work proposed in Topic B seem to be more directly applicable to my own research. In any case, I would be happy to work in any of the topics.

Please feel free to contact me for any further information.

Sincerely yours,

Manuel Cañizares
